Certifications & Technical Skills

- **Certificates** CompTIA A+ (2026)
- **Operating Systems** Windows (Proficient), Windows Server 2019 (Working Knowledge), Linux (Working Knowledge)
- **Networking & Systems** TCP/IP, DNS, DHCP, VPN Fundamentals, Active Directory Domain Services, Group Policy
- **Programming & Tools** Python, SQL, Git, Microsoft 365, Jira, Zoom, PuTTY

Professional Experience

Los Angeles County Registrar-Recorder/County Clerk **Los Angeles, CA**
Temporary Election Worker Sep 2025 - Nov 2025

- Reduced the average wait time by 1 minute per voter by processing 800+ voters through accurate ballot processing and voter-information updates in a high-volume environment.
- Maintained 100% ballot accountability by completing required morning and evening chain-of-custody procedures.

CSULB, Undergraduate Research Opportunity Program (UROP) **Long Beach, CA**
Student Trainee On-Campus Work Study Sep 2019 - May 2021

- Translated research workflows into practical technical solutions by gathering requirements with the Principal Investigator and prototyping a Python/Tkinter/OpenCV GUI for video-frame extraction and image analysis.
- Boosted image-analysis efficiency by 20% and saved 52 hours annually by developing and testing a local Django/AJAX/SQL web application to store video-frame data and generate frame composites using frame stepping.

Technical Experience & Projects

Active Directory Home Lab **Baldwin Park, CA**

- Deployed and managed a virtualized enterprise environment using Windows Server 2019, establishing an Active Directory Domain Controller integrated with DNS and DHCP services.
- Provisioned and managed 20+ Active Directory user accounts, structuring users into Organizational Units (OUs) and Security Groups to enforce centralized role-based access control (RBAC).
- Configured network file shares and mapped drives with granular permissions, applied Group Policy password settings and security rules, and executed user password resets to maintain secure shared resources.

PC Building and Technical Support – Personal/Family Projects **Baldwin Park, CA**

- Restored system boot functionality on a failed PC by interpreting motherboard LED diagnostic flashes and beep codes, pinpointing a system-timer fault, and performing a CMOS reset to achieve successful POST.
- Diagnosed performance and hardware issues across 5+ custom systems; resolved driver conflicts to restore Bluetooth functionality and performed drive health checks using CrystalDiskInfo to prevent data loss

Education

California State University, Long Beach (CSULB) Long Beach, CA
Bachelor of Science in Computer Science Dec 2023
Relevant Coursework: Introduction to Networks and Distributed Computing, Operating Systems, Computer Architecture, Computer Security, Database Fundamentals, Software Engineering
